

CSS styling techniques

- Element type selector

```
p {  
    color : red;  
}
```

- id selector

```
#highlight {  
    background-color : red;  
}
```

- class selector

```
.highlight {  
    font-size : 10px;  
}
```

- Universal selector

```
* {  
    font-style : italic;  
}
```

- Grouping selector

```
p, span {  
    text-align : center;  
}
```

- Descendant selector

```
.container p {  
    color: red;  
}
```

- Attribute selector

```
a[href$=".pdf"] {  
    color: red;  
}
```

- Pseudo-class selector

```
button:active {  
    position: relative;  
}
```

Child selector

```
.parent > p {  
    color: blue;  
}
```
